### PROGRAM DESCRIPTIONS

## ART ELEMENTS

The Art Elements are the building blocks we use to make artworks. They are Colour/Value, Line, Space, Form, Texture and Shape. We make art to express what we see, feel or imagine.

<p><b>Colour &amp; Value</b>          Colours can be natural or man-made. Value is the lightness or darkness of a colour. Colours can be cool, warm, monochromatic &amp; complementary.</p> 	<p><b>Line</b>          A line is a mark which moves from one place to another. The eye follows a line. Lines can be long, short, wavy, straight, thick, zig-zagged, curly, sewn...</p> 
<p><b>Shape</b>          A shape is created when a line joins to enclose an area. Shapes can be solid or outlined, geometric or organic.</p> 	<p><b>Texture</b>          Texture is the appearance &amp; feel of a surface. Texture can be an illusion or physically felt. Texture can be rough, smooth, bumpy, abrasive, scaly...</p> 
<p><b>Space</b>          Space surrounds us, stretching to infinity or compressed into a balloon. Our perception of space can change according to distance between objects, perspective &amp; tone.</p> 	<p><b>Form</b>          Form is the 3D representation of the 2D element of shape. Forms can be geometric or abstract. A sculpture is a 3D form.</p> 

In this Art Appreciation program, we will be focusing on The Elements of Design and how to use these tools to make interesting and dynamic art works. The lessons will be used for all age groups and modified for all skill levels. Students will be able to create or choose their own subjects/images. All materials are included.
